BIBLIOGRAPHIE DES PUBLICATIONS STATISTIQUES AFRICAINES

M73-1744

FOREWORD

The present bibliography is the third issue published by the secretariat since the third session of the Conference of African statisticians, held in 1963, requested that an up-to-date bibliography of African statistical publications be prepared by ECA.

The period covered by this issue is 1966 to the beginning of 1973 and it has been compiled on the basis of statistical and economic publications received by ECA. It is not as complete as would be desirable and is limited largely to official publications of African countries; private research documents have not been included. The dates mentioned for each of the publications indicate only the issues received by ECA which do not imply that they are not available for other years.

In this document, countries have been listed in English alphabetic order and the publications are grouped under sub-titles indicating the type of statistics to which they refer.

- General purpose statistical and economic publications, including economic surveys
- National development plans and related documents
- National accounts, incl. capital formation
- Balance of payments
- Population and vital statistics
- Agriculture, fish, livestock and forestry
- Industry, incl. mining and quarrying, manufacturing, construction and electricity, gas and water
- External trade

AVANT-PROPOS

La présente bibliographie est la troisième publiée par le secrétariat de la CEA depuis que la troisième session de la Conférence des statisticiens africains, réunie en 1963, en avait exprimé le désir.

Cette bibliographie couvre la période 1966-1972 ainsi que le début de 1973 et a été établie depuis les publications statistiques et économiques reçues par la CEA. Il est certain qu'elle n'est pas aussi complète qu'elle le devrait et qu'elle ne couvre pratiquement que les publications officielles des pays africains et ne tient par contre qu'assez peu compte des travaux privés de recherche. Les dates mentionnées pour les publications indiquent que celles-ci ont été actuellement reçues par la CEA ce qui n'implique pas obligatoirement que les publications dont les années ne sont pas indiquées soient épuisées ou non existantes.

Dans ce document les pays sont classés selon l'ordre alphabétique anglais et les publications par sous-titres indiquant le type de statistique auxquels elles se réfèrent.

- Statistiques générales et publications économiques, y compris les études économiques
- Plans nationaux de développement et documents connexes
- Comptabilité nationale
- Balance des paiements
- Statistiques démographiques
- Agriculture, pêche, élevage et sylviculture
- Industries extractives, industries manufacturières, construction et électricité, gaz et eau
- Commerce extérieur
- Distribution (commerce de gros et de détail)
- Transport, communications et tourisme
- Banques et assurances
- Finances publiques
- Education et culture
- Santé publique
- Main d'oeuvre, emploi et salaires
- Consommation, y compris la consommation privée, dépenses et revenus, enquêtes sur la consommation des ménages et dépenses, indices du coût de la vie, etc.
